# Lubricants at the forefront of innovation

To: Our HAXO Distributors and Consumers...

Thank you for your interest in HAXO Lubricants. Our company has manufactured and sold only the highest quality lubricants to all types of industry. Manufactured under strict ISO 9001 registered quality assurance standards, these lubricants are formulated from the highest quality synthetic and mineral base stocks combined with unique premium, anti-wear additives. They deliver a number of significant, cost effective advantages. We appreciate your consideration of HAXO Lubricants. We realize that we must constantly work to earn and maintain your trust and your business.

When you choose **HAXO**, you get so much more. Because you have the confidence from a top-level **multi-energy company** present throughout the energy chain.

Sincerely,

Tsaone Bonang / Chief Executive Officer

**The HAXO Commitment  
Net Zero Emissions  
by 2050**

One product range that facilitate the choice of the lubricant that best suits your needs

# Discover our new packaging

## Maximum precision in pouring the oil

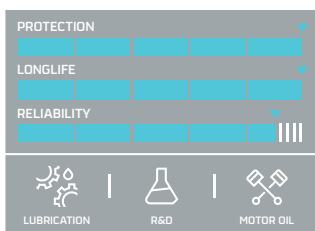

The design of our lids allows more efficient pouring of the oil by preventing losses due to splashing.

## More sustainable packaging

Made with recycled materials. Our recyclable packaging contributes to circularity, minimizes the use of plastic, and contributes to reducing CO<sub>2</sub> emissions.

## Product properties

The new seals and icons communicate the benefits and differential properties of each product.

### Greater efficiency

The product occupies less space on shelves and in warehouses.

### Innovative and ergonomic line

More modern image and lighter packaging whose ergonomics make it easier to use and hold.

### Product identification

Name of the product and grade of viscosity.

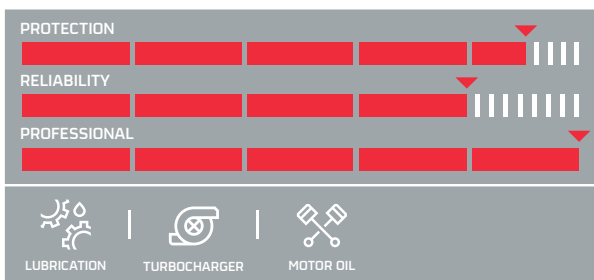

# GENESIS RT 100 RANGE

## ENGINE OIL

15W-40

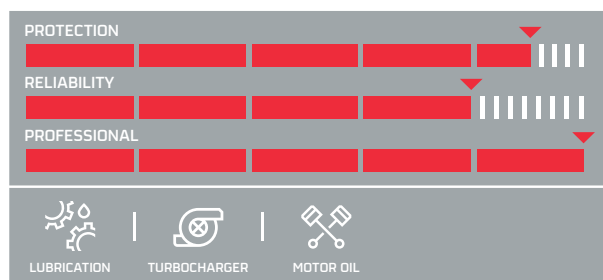

High quality semi-synthetic and mineral lubricants.

## ENGINE OIL

10W-40

High quality semi-synthetic and mineral lubricants.

## GEAR OIL ISO 320 EP

This is an extreme pressure oil for industrial gears. It contains high pressure additives based on sulfur and phosphorus compounds which significantly reduce friction and prevent wear.

## GEAR OIL ISO 150 EP

HAXO ISO 150 EP Gear Lubricant is designed for many types of industrial bearing and gear applications operating in heavy duty and shock-loaded conditions.

HAXO EP Gear Lubricant is produced exclusively from premium base stocks and advanced additive technology to deliver anti-wear and extreme pressure protection in sustained, long-life applications.

HAXO Gear Lubricant excels in the lubrication of heavily loaded enclosed gear drives and reducers on drives of all sizes. These gear sets include a variety of types such as spur, bevel, herringbone, planetary, and worm designs. Suitable for use with bath, splash, circulating, and spray-type lubrication systems.

## GEAR OIL EP 80W-90

High-pressure gear oil with mineral oil base. For reliable lubrication and low-wear synchronisation. Is typically used as a manual gearbox oil for road vehicles and construction and agricultural machinery.

## BRAKE FLUID DOT4

BRAKE FLUID DOT 4 is a state-of-the-art, high-performance, premium brake fluid of outstanding quality, with a high wet boiling point and thus extreme safety reserve against vapour lock.

## ATF DEXTRON III

A universal all-season synthetic-based transmission fluid (ATF) for automatic gearboxes, hydraulic converters, hydraulic power steering systems, car hydraulic clutches and other hydraulic devices, including the ones operating under heavy-duty conditions in trucks and off-road vehicles. It ensures a flawless operation of an automatic gearbox, guarantees minimal wear, a lasting service life of transmissions and fuel economy.

## MULTI-PURPOSE GREASE

A premium quality high melting point multi-purpose grease with EP additives for use in all roller type anti-friction and plain bearings subjected to high load conditions. Used extensively for applications throughout industry and the automotive sector.
